

REDEGADES.AI

AI: Your Co-CxO

YOUR TEAM ALREADY HAS AI.
NOW MAKE IT A LEADERSHIP ADVANTAGE

THE CHALLENGE

The challenge isn't that leaders lack access to AI. It's that access without alignment makes each of them smarter and the company more divided.

- They're using AI, but only individually.
- They don't know what they don't know. This is the education gap.
- Adoption happened without governance.
- They're renting intelligence instead of owning it.
- Deployment outpaced value.

REDEGADES.AI can partner with your leadership team to integrate AI into your business operations.

We provide end-to-end support in four core areas:

01 TRAINING & ENABLEMENT

Build AI confidence and capability.

We train your leaders and team to think strategically about AI, use it effectively and adopt it responsibly.

03 IMPLEMENTATION

Make AI real in your business.

We build and integrate custom AI solutions that connect your data, processes, and people for measurable results.

02 DESIGN & STRATEGY

Create your AI roadmap.

We help you identify high-impact use cases, prioritize what matters, and design a strategy aligned to your business and goals.

04 PRIVATE CO-CxO PLATFORM

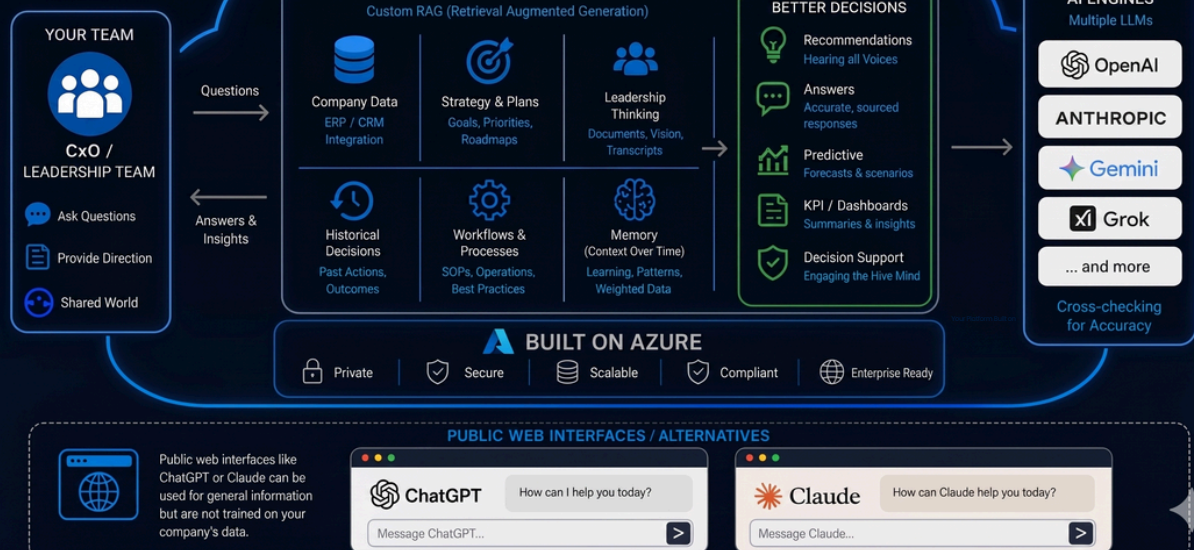

Your private AI thought partner.

A secure, governed AI platform trained on your strategy, data, and leadership philosophy - working alongside your executives as a true Co-CxO

REDEGADES.AI

AI YOUR CO-CxO

Custom AI Trained
